Early Childhood Education is the foundation for lifelong learning.

Our ELC educators support, challenge and foster each individual child's learning and development.

Students will participate in **Library, Music** and **Movement** lessons. The children will also have an introduction to the literacy approaches and investigative mathematical methodologies used within our Junior School classrooms.

The **Canterbury Values** of **Integrity, Respect, Gratitude** and **Effort** are embedded within the ELC philosophy and everyday practices. Very strong links to the Canterbury Junior School programs, students, facilities and events, enables a smooth transition from the ELC into Prep and beyond.

We encourage families to lodge their ELC applications as early as possible, as waiting lists may apply. Please contact our Enrolments team if you have any questions.

Canterbury's **Engine Room** is an amazing space where children can improve their energy levels, concentration, and fine and gross motor skills – all while having fun.

The Engine Room is based on extensive research which shows these activities 'get your engine running' at the optimum level for learning.
